ABOUT ME

A fresher with skills in software development, specializing in creating efficient, user-friendly, and visually appealing solutions. Adaptable and eager to learn in a collaborative team environment. Demonstrates strong problem-solving abilities and a passion for enhancing user experiences. Ready to bring innovative ideas and contribute effectively in a dynamic software development role.

PROJECTS:

LEAF ANATOMY

Understanding leaf anatomy can enhance immersive experiences by accurately representing foliage in virtual environments. Realistic rendering of leaf structures and textures adds authenticity to virtual landscapes, contributing to a more immersive and engaging VR experience for users exploring virtual forests, gardens, or botanical simulations.

Tools used: Blender, Unity.

KEY LOGGER SECURITY

We developed a basic keylogger to explore how such tools can capture sensitive data like passwords without the user's knowledge. This project aimed to understand potential security risks and how keyloggers operate. We documented our findings in a research paper and used Figma for the interface and Excel Spreadsheet for backend data handling.

Tools used: Python, Figma, xl sheet.

KM PORTAL

Developed a knowledge management portal personalized for our college department. Developed the front-end with Html, Css and Javascript. Django-python framework and sqlite-3 for database is used in the back-end development of the website.

Tools Used: Html, Css, sqlite3 and Django Python framework.

EDUCATION

2021-2025 B.E COMPUTER SCIENCE AND DESIGN

R.M.K ENGINEERING COLLEGE

CGPA: 8.09

2019-2021 HSC

SRI PRAKASH JUNIOR COLLEGE

PERCENTAGE: 81.2

2018-2019 SSLC

Z.P HIGH SCHOOL

CGPA : 8.2

ACHIEVEMENTS

- Secured First place in sci-hackathon with ar/vr project.
- Received Second place in mini project competition conducted by the department .
- Secured 3rd prize in kabaddi at anna university zonal competition.

SOFT SKILLS

- TIME MANAGEMENT
- ADAPTABILITY
- LEADERSHIP QUALITIES

SKILLSET

- Python
- UI/UX
- HTML,CSS
- SQL
- SDLC

CERTIFICATIONS

- Ai For Everyone: Master the Basics
- Java Language Features
- Introduction to Python

INTERNSHIPS

• FLUTTER APP DEVELOPMENT, REVAMP ACADEMY

Maintained comprehensive knowledge of mobile development cycle and addressed challenges arising in each phase. Successfully integrated push notifications into apps, bolstering user engagement.

FLUTTER FRONTEND-PROJECT: AJIO CERTIFICATE 2022

• ANDROID DEVELOPER INTERN, NSIC CERTIFICATE 2023

• VRARRI(Japanese company) : 15/12/2024 -30/05/2025

Intern as a tester in virtual reality field. I have worked on the 3 projects in the company and developed real time skills on the certain field and adapted to the field environment.
